DETAILED ACTION

Allowable Subject Matter

Claims 2,3,5-8,10,11,13-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim Rejections - 35 USC § 102

Claims 1,9 are rejected under 35 U.S.C. 102(b) as being anticipated by Broillet. See the previous office action for this rejection.

Claim Rejections - 35 USC § 103

Claims 4,12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Broillet. See the previous office action for this rejection.

Response to Arguments

Applicant's arguments filed 8/20/04 concerning the above rejections have been fully considered but they are not persuasive. It is inherent that there must be some type of bin in Broillet to catch the material flowing through the screen. Is applicant saying that the material in Broillet flows through the screen and then goes onto the floor to be swept away as garbage? Concerning the 103 rejection, clearly applicant's minerals are well known in the art and they can be used within the Broillet process and apparatus.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
